Salmonella Detection and Typing

Culture (MSRV selective enrichment)

Culture (*S. gallinarum*/*pullorum*)

Serotyping of Salmonella isolates

Differentiation Salmonella vaccine strains (IDT)

Differentiation Salmonella vaccine strains (LAH/Elanco)

PCR Examinations

Avian Encephalomyelitis (AE)

Avian Gyrovirus 2

Avian Influenza (AI)

Avian Leucosis Virus (ALV, subgroup A, B)

Avian Leucosis Virus J (ALV, subgroup J)

Avian Nephritis Virus (ANV)

Avian Orthoreovirus (Reo)

Avian Pox

Avian Rhinotracheitis Virus: Type A and B (ART, TRT, AmpV)

Avibacterium paragallinarum (*Hämophilus* spp.)

Avian Hepatitis E Virus (BLS/HEV)

Bordetella avium

Campylobacter spp.

Chicken Anaemia Virus (CAV)

Chicken Astro Virus (CastV)

Chlamydia spp.

Egg Drop Syndrome (EDS)

Duck hepatitis virus

Erysipelothrix rhusiopathiae (Erysipelas)

Fowl Adenovirus (FAdV)

Gallibacterium spp.

Haemorrhagic Enteritis Turkeys (HE)

Histomonas meleagridis

Infectious Bronchitis Virus (IBV)

Infectious Bursitis Virus (IBDV, Gumboro)

Infectious Laryngotracheitis (ILT)

Marek Disease Virus (GHV-2)

Marek Disease Virus (GHV-2), Rispens/non Rispens

Mycoplasma gallisepticum (Mg)

Mycoplasma synoviae (Ms)

Newcastle Disease Virus (NDV)

Ornithobacterium rhinotracheale (ORT)

Turkey Herpes Virus (THV/HVT)

Pasteurella multocida

Reticuloendotheliosis virus (REV)

Riemerella anatipestifer

Salmonella spp.
